

SL-X6 Automatic Horizontal
Wrap-Around Sleever

The SLX- 6 series machine automatically picks a flat blank by means of a rotary motion vacuum pick off from a magazine by detection, and places them onto the continuously moving products. The product can be placed either automatically or manually onto the product conveyor. The product sleeve is then ploughed around the product and held in the continuously moving flights. The sleeve is then wrapped and glued to secure the product. The machine is fitted with a no product no skillet pick off. Powered belts then discharge the cartons

- Designed for a three shift operation
- Heavy welded steel frame
- Stainless steel shafts and guides
- Completely guarded by easily removable fixed guards and hinged see-through electrically interlocked top guards allowing a clear view of the machine operation.
- Complies with BS5304
- Robust transmission chains with high quality carton lugs.
- Overload protection on machine drive and all mechanisms.
- Hot melt jet applicator
- Extensive use of heavy duty timing belts with duplex main drive chain
- Driven carton discharge belts
- All adjusting points fitted with hand wheels, digital readouts, quick release handles and calibrated scales.
- Low level noise – below 80db (A)
- MMI touch screen control

OPTIONAL EXTRAS

- Emboss coding
- Ink Coding
- Stainless steel guards
- Automatic blank magazine loader
- 3 or 4 arm rotary head
- Cold gluing
- Barcode scanning
- Laser coding
- Tab Folding

PRODUCT TRANSFER SYSTEMS:-

JWP offers a comprehensive range of standard product transfer systems for most types of product. See separate broucher for details

CARTON SIZE RANGE

- A - 80 – 160mm
- B - 40 – 275mm
- C - 22 – 130mm

Specials can be made upon request

Technical Data

Output :-
Variable up to 200 Cartons/min

Carton closure:-
Hot melt (jet gluing)

Electrical:-
0.75kW, AC motor with inverter giving variable speed.
PLC Control and electronic cam box.
24V control circuit
3kW single phase for hot melt applicator.

Carton Flight Pitch:-
Std options 7.5" 10" 15" pitch between flights
